

Superior Performance and an Expansive Product Line.

Product Information

AMSOIL carries five lines of TRICO wiper blades: Exact Fit, NeoForm, Heavy Duty, Winter and Classic. TRICO is committed to providing the broadest line of wiper products at the highest level of quality for automotive original equipment manufacturers and the aftermarket. Drivers around the world depend on TRICO wiper blades. Their innovative design, quality production and superior performance make TRICO a perfect complement to AMSOIL and AMSOIL products.

About TRICO

The Tri-Continental Corporation was founded in 1917 to provide drivers with better visibility and introduced the first manually-operated windshield wiper. Today, TRICO is one of the world's leading manufacturers of wiper products and produces nearly one million wiper blades every week.

TRICO Exact Fit

TRICO Exact Fit wiper blades are pre-assembled to precisely match the vehicle's arm type. They easily install in only seconds. Exact Fit blades' all-metal construction provides superior strength and durability. These high-quality blades offer better-than-OEM performance and longevity, and cover nearly 99 percent of all auto/light-truck applications. TRICO Exact Fit blades also cover many applications in class 6, 7 and 8 heavy-duty trucks. They are available in lengths from 10" to 28".

Exact Fit®

TRICO NeoForm

NeoForm wiper blades are TRICO's highest-performing blades. Their single beam construction offers an infinite number of blade pressure points that deliver a constant, even pressure across the entire length of the wiper for a smoother, more consistent wipe. NeoForm blades' attractive European aerofoil design helps keep the blade on the windshield, even in high wind or vehicle speeds. They fit most popular vehicles and come with a blade cleaner cloth packet.

NEOFORM BEAM BLADE

TRICO Heavy Duty

TRICO offers the largest selection of heavy-duty wiper products on the market, with products for virtually all heavy-duty truck, bus and recreational vehicle applications. All TRICO Heavy Duty Wiper Blades feature durable metal construction and heavy-duty natural rubber wiping elements for quality performance under demanding conditions. AMSOIL offers seven blades from the TRICO Heavy Duty line, including the 61, 63, 64, 65, 66, 67 and 68 Series.

Heavy Duty

TRICO Winter

As the first manufacturer to develop winter wiper blades, TRICO set the standard for snow-country performance. TRICO Winter blades feature a protective rubber boot to help prevent snow and ice from clogging the blade. This allows it to maintain even pressure to provide a clean wipe and enhance driving visibility. Winter blades have a riveted design for extra durability. Their extra-thick, rugged OEM metal superstructure provides superior strength, and the pre-attached universal adapter fits 95 percent of vehicles directly. TRICO Winter blades are available in lengths of 11" to 28".

No other wiper blade manufacturer offers 17", 19", 21", 26" or 28" lengths.

Winter

TRICO Classic

Classic blades are for vintage cars that are at least 20 years old. They feature a silver finish to resemble OEM blades on many classic American cars manufactured during the 1940s, '50s and '60s. The precision cut rubber wiping element provides a clean wipe every time. AMSOIL offers five models from the Classic blade line. TRICO Classic blades are available in lengths from 10" to 18".

Classic

Application Information

TRICO Exact Fit, NeoForm, Heavy Duty and Winter wiper blade application information is available in the AMSOIL Online Product Application Guide at www.amsoil.com. TRICO Classic wiper blade applications can be found in the AMSOIL Online Vintage Lookup, also at www.amsoil.com.
